

## Be a Part of the Solution!

Trustees play a crucial role in The National Fragile X Foundation. By committing to monthly or quarterly financial support of the Foundation at a \$1,200 or higher annual level, Trustees provide a powerful anchor that ensures the long-term health and vitality of the organization. With our Trustees behind us, we can build on the vision that the entire Fragile X community shares for enhanced support of families and individuals, increased awareness and research, new treatments, and ever more effective legislative advocacy.

### How Your Commitment Helps

As the world's most visible and active support organization for Fragile X, the NFXF provides a huge array of services

- **Education** through [www.fragilex.org](http://www.fragilex.org) and [www.fxtas.org](http://www.fxtas.org), production of the Fragile X Quarterly, and numerous other publications
- **Awareness** activities such as public service announcements and mailings to physicians and educators.
- **Sponsorship** and organization of the biennial International Fragile X Conference.
- **Legislative advocacy** efforts in Washington, D.C. that have resulted in 10 million new dollars for Fragile X research and programming at the Centers for Disease Control, and a near doubling (to nearly \$30 million annually) of the Fragile X research budget at the National Institutes of Health.
- Establishment of the **Fragile X Clinical and Research Consortium**, with 25 clinics now operating (more are planned) across the U.S. and into Canada. All of them are staffed by professionals ready to assist families in the diagnosis and treatment of Fragile X.
- **LINKS Support Network** groups across the country for information sharing and support.
- Participation as a founding partner of the **Collaboration to Promote Self Determination**, a national organization working to ensure the full human and legal rights of people with intellectual disabilities.
